

cupid kaity

I payed for my tickets at the movies that day early so i could get a front seat. I was 15 and didnt really no anything about sexual incounter. I went into the theater and sat down in my seat when this cute,tall,curly haired and brown eyed guy sat by me. I looked at him with a shy look on my face and i could tell i was blushing. He smiled and said "hey my names nick whats your name" i smiled and said "oh my names kaity." We accidentally touched hands and i giggled and we both said sorry at the same time. The movie started a couple minutes later and when it did he yawned and put his arm around me and i giggled and he looked at me and we leaned in and kissed. He pulled me onto his lap and as i sat there kissing him i got really wet and i no he could feel it because he looked at me and said "wanna go there" i smiled and kissed him and he pulled my skirt down and he pulled his shorts and boxers down. I wanted to see his cock so i looked down and smiled and i was a virgin so he said "ill take it as slow as i can." He took off his sweatshirt and put it over us so if someone walks by it wont make a scene. He slid it in as slow as he could and i started crying. "IT HURTS" i whispered in his ear. "i no itll be ok babe" i smiled and after 5 minutes he was all the way in strokking it in and out and i was mouning like crazy until a guy with a flashlight came. We got kicked out and they told us to never come back.
