

Old Lady

Being a male nurse in a rest home has its perks. That is, if you're into older women. The women in the home range from about age 65 to 100. Many are widowed or otherwise unattached and, as I found out, are sometimes very horny. I had not been on my job for a week when Sally, a mature woman of 71, grabbed my ass. She told me she had not had sex in years and would give anything to be fucked by a "young stud." I was surprised by her advance. But even more so, I was surprised that I was turned on. Sally did not look like a typical old lady. Yes, her hair was gray, but it was also longer than most older women- straight hair, a little past shoulder length. She was also quite athletic looking for a lady of 71. Sally asked if I had ever experienced an older woman before. I explained that I was 31 years old and that my oldest partner had been 34. "That's nothing," Sally cooed. I know I'm not hot looking like the little girls you date, but I can guarantee you that none of those girls can match my handjobs. At that, Sally walked to her bedroom, drew the blinds, and asked me to come in. As I entered, she shut the door behind us. "I want to see your cock now," she calmly stated. I removed my pants and underwear to reveal my flaccid penis. "Let's see if we can wake him up," she exclaimed. She lightly grabbed my balls and started massaging them with one hand while the other slowly stroked my growing cock. As she stroked, I pulled her blouse up, and she stopped what she was doing to take it all the way off. She unfastened her bra strap and went back to servicing my cock. As I removed her bra, I was amazed by how firm her tits were. She had obviously had some surgery in that area, which was alright by me! I couldn't believe that I wanted to fuck this old lady so bad. Sally said that she was going to make me cum first. She said that experience told her that men can't relax enough to be a good fuck until they've come once. She said, "I hope you don't mind, but I insist that you cum once before you get to fuck me." I certainly didn't argue. And as my knees grew weak, I asked to lie down on the bed. Sally's technique was beyond anything I had experienced. Several times she brought me to the brink and then held back to prolong my pleasure. All this she did without a word- it was as though she could sense my excitement. Finally she said she wanted to see me cum and she began stroking fast and hard. I swear I never came harder than I did at that moment. All the tension released from my body as I shot the most powerful streams of cum I had ever shot. Some of them landed on her and some shot as far as two feet away. "That's what I wanted to see," she screamed. After I came, she wiped me off with the bed sheet and immediately devoured my cock in her hot wet mouth. I had never had a woman suck so hungrily on my cock right after cumming before. I was surprised that I never even lost my erection. I was as hard as I would have been had I not had sex for days. Sally was insatiable as she first rode my cock cowgirl style, had me fuck her from behind and then from the side. Finally, she told me I could choose the final position where I would cum. I asked her to ride me so that I could cum while staring at her gorgeous tits. As she bounced up and down the length of my cock, I touched her nipples, then cupped her breasts. I let out a guttural shout as her tight pussy milked all the cum from my hard cock. After we were done, Sally said she had some business to attend to and that I would have to leave. She said I could come back next week if I was a "good boy." The very next day I got a call from Margot, a friend of Sally's. She said Sally had told her about me and that she wanted to see first hand what all the fuss was about. Needless to say, I banged Margot as well as Luz, Esther and Francesca all within the next three months.
